YOLISA MZAMANE

PRODUCT DESIGN LEAD

Johannesburg, South Africa | yolisa.mzamane.93@gmail.com | www.yolispace.co.za

I am a Product Designer that focuses on delivering impactful products, eager to tackle any challenges and apply creativity to create intuitive user experiences. I design intuitive digital products that bridge business goals and human needs.

EXPERIENCE

Nedbank - Product Design Lead   Jan 2022 - Present
- Designed and launched new features on the Nedbank Business Hub, improving the onboarding process and client experience.
- Collaborated in a cross-disciplinary squad to design complex systems tailored to business users.
- Created and maintained design systems and style libraries for scalable product consistency.
- Integrated accessibility and data -driven insights into design decisions to improve user experience across platforms

BTN Mondial - UX Designer   Apr 2019 - Mar 2020
- Designed user interfaces and interactive experiences for digital products and internal tools.
- Conducted research to identify user needs and translated insights into functional design solutions.
- Collaborated with developers and product managers to refine UX across web and mobile platforms.

Laxo Outdoor - Junior UX Designer   Apr 2013 - Aug 2018
- Produced high-quality designs for brand communication and digital marketing campaigns.
- Researched and compiled client insights to enhance creative direction.
- Contributed to the design and delivery of professional print and promotional materials..

KEY PROJECTS

Nedbank Business Hub   2022 - 2025
Led UX and product design for key banking tools supporting small and medium businesses. Introduced new workflows and improved design consistency.

Design for Good - The United Nations   2022 - 2024
Selected to represent Nedbank in a global non-profit alliance - using design to improve menstrual health education in Arusha, Tanzania.

Global Learning for Sustainability (GLS)   2025 - Ongoing
Collaborating with a Ugandan non-profit specialising in menstrual health education. Part of a multidisciplinary team applying design thinking to enhance GLS's educational tools, community services, and products.
